

DALO® textile marker

Images similar

Colour: ■ ■ ■ ■

Packaging unit: 6 pcs.

Thickness (mm): 3

The Texpen® allows excellent marking of all textiles. The marking covers well and is conspicuous - able to withstand washing and boil washes up to 250°C. You can achieve a ideal, even application of the paint thanks to the unique compressed air mechanism. The ball in the marking head is made from durable stainless steel. Available in two variants: Fine and medium.

Label textiles with the following advantages:

- Clean, easily legible marking on all textiles
- Abrasion resistant and able to withstand boil washing
- Ergonomically shaped
- Writes at any angle (even overhead)
- Dispensing rate can be adjusted via the pump
- Practical to store

Operation:

Actuate the pump at the rear end of the marker to create the desired pressure. In this way you can label almost any textiles at any angle.
