

COLORBOY tube marker

[Images similar](#)

Colour: ☐

Packaging unit: 10 pcs.

Thickness (mm): 3

COLORBOY tube marker: Ideal for weatherproof marking of all surfaces (metal, concrete, wood, etc.). COLORBOY lets you reliably mark rough, oily and wet surfaces. The versatile COLORBOY paints are low- chlorine and lead- free and thus ideally suited for stainless steel.

- Application temperature: -20°C to 70°C
- Contents: 50 ml

Operating instructions:

Hold the tube vertically and press onto the surface to be marked. For even lettering, apply steady pressure to the tube marker. Clean the tip after use. Attention: The paint can irritate the eyes. Highly flammable. Keep COLORBOY away from naked flames.
