**Colour:** 

**Packaging unit:** Individual

**Thickness (mm):** 1

The rapid drying, fine tip marker. The label marker is particularly well suited to clean, smooth surfaces (labels, metal, plastic, glass etc.). Select from several lettering thicknesses and colours.

### **Marker with fine tip**

- Ideal for the steel trade and machinery construction
- Writes on smooth surfaces
- The GIMA label marker dries and adheres quickly
- Ideal for tags, slides, aluminium, plastic, glass, etc.
- Made in Germany
