## 2022 PRICE LIST\*

*\*Price list valid from 1 February until 31 December 2022.*

## LASE ONE 200

Microwelding equipment Lase One 200 – Power : Min. 1j / Max. 200 joules, including :

- Powerful, fast and accurate Lase One generator suited for welding precious materials, steel, aluminium alloys and copper alloys
- Model intended for :
  - \* Jewellery applications to weld precious materials ( gold – silver )
  - \* Dental / Laboratory & prototyping uses
- Binocular magnifier (Zoom x4 - x20 - LED ring light adjustable in intensity – with anti reflection devise), equipped with an optical shutter managed by the generator
- Single arm adjustable in height, position memory and double pivot rotation from 0 to 360°
- Compact and adjustable microwelding torch (Length 1,5m std) & accessory kit
- Ultra flexible ground cable ( Length 2m std)
- Footswitch pedal (Length 2m std)

REFERENCE : L1-200

UNIT PRICE OF COMPLETE EQUIPMENT : 5 900 €

## LASE ONE 200i

Microwelding equipment Lase One 200i – power : 1 to 200 joules, including :

- For Industrial uses
- Lase One generator - 200 Joules
- Welding torch (length 1,5m) & accessory kit
- Ground cable (Length 2m)
- Footswitch pedal (Length 2m)
- Stereo binocular microscope with articulated arm, equipped with controlled shutter zoom x4 x20 and cold Lighting by ring LED.

### Scalable model

REFERENCE : L1-200-S

UNIT PRICE OF COMPLETE EQUIPMENT : 9 500 €

## LASE ONE 250i

Microwelding equipment Lase One 250i – power : 1 to 250 joules, including :

- For Industrial uses
- Lase One generator - 250 Joules
- Welding torch (length 1,5m) & accessory kit
- Ground cable (Length 2m)
- Footswitch pedal (Length 2m)
- Stereo binocular microscope with articulated arm, equipped with controlled shutter zoom x4 x20 and cold Lighting by ring LED.

### Scalable model

REFERENCE : L1-250-S

UNIT PRICE OF COMPLETE EQUIPMENT : 12 700 €

**Mobile version:** Including Lase One 250i welding solution + mobile serving cart equipped with electric cylinder operated by remote control. Accessories (micro welding torch, ground cable, footswitch pedal) are extended.

REFERENCE : L1-250-M

PRICE: 16 400 €

## LASE ONE 300i

THE MOST POWERFUL WELDING SOLUTION OF THE LASE-ONE RANGE

Microwelding equipment Lase One 300i – power : 1 to 300 joules, including :

- For Industrial uses
- Lase One generator - 300 Joules
- Welding torch (length 1,5m) & accessory kit
- Ground cable (Length 2m)
- Footswitch pedal (Length 2m)
- Stereo binocular microscope with articulated arm, equipped with controlled shutter zoom x4 x20 and cold Lighting by ring LED.

REFERENCE : L1-300-S

UNIT PRICE OF COMPLETE EQUIPMENT : 15 900 €

**Mobile version:** Including Lase One 300i welding solution + mobile serving cart equipped with electric cylinder operated by remote control. Accessories (micro welding torch, ground cable, footswitch pedal) are extended.

REFERENCE : L1-300-M

PRICE : 19 600 €

### INFORMATION

Non contractual document, for an internal use. Sets of equipment given as an example. Document valid from 1 February until 31 December 2022. The prices given in the current pricelist are for information only and may be changed without prior notification. Prices including standard accessories and electrodes. Options are extra price. Price EXW Bordeaux (France).
