

CNC riveting machines two pallets unit X, Y, Z

CNC RIVETING MACHINES	CR 350	CR 500
Riveting power (DaN)	2 000	2 000
Pallet dimensions (mm)	350 x 220	500 x 300
	650 / 525 / 120	800 / 730 / 120
<ul style="list-style-type: none"> Numerical riveting points (X/Y/Z) can be changed on each pallet. CNC riveting machine with digital controller new generation intended for multi - products production batch, medium and mass series. Very fast selection of product by changing 2 tools on each pallet. 		

STANDARD CONFIGURATION

Machine with high flexibility with CNC Panel PC SIEMENS	
Tools: 2 to 1000 pallets	
1 riveting unit 2000 DaN (2nd in option)	
2000 numerical programs - Hard disk 250 Go	
HMI device 8" (SIEMENS) - 2 USB	
Control system of the riveting effort by electronic system . Ensures a high quality level.	

OPTION

2nd riveting unit	
1 Press Station 3000 DAN	
1 lubrication station	
1 control station of components before assembly	
<i>configuration CR: 3 stations max 3</i>
