Cold Heading : head, collar or both

The unicity of expertise for Numalliance in [press operation](#) has found a specific niche in cold heading. With an innovative approach the Group is the leader in manufacturing and supplying cold heading unit for muffler hanger. The tooling design enables the production of a head, of a collar or both in the same unit, and with the same cycle time.

Capable of handling wire or tube, basic or stainless, Numalliance is now venturing in developing a line of all electric cold heading units
